WHAT IS COMMUNITY-BASED RESEARCH?

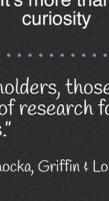

Community-Driven

It's practical and relevant

Participatory

It involves stakeholders

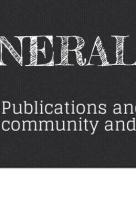

Action-Oriented

It's more than curiosity

"A research approach that involves active participation of stakeholders, those whose lives are affected by the issue being studied, in all phases of research for the purpose of producing useful results to make positive changes."

Nelson, Ochocka, Griffin & Lord, 1998, p.12

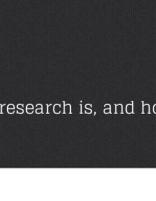

A FEW RESOURCES

Publications

Events

Projects

GENERAL RESOURCES

Publications and events about what community-based research is, and how community and campus can do it together.

1 Background paper: Collaborative community campus research
